

IDAHO BUSINESS FOR
THE OUTDOORS

February 4, 2022

Dear Representative Lickley,

Idaho Business for the Outdoors supports the passage of House Bill 466 and the one-time allocation of \$5 million dollars to Confined Animal Feeding Operations to improve livestock byproduct, waste, nutrient and water management, its land application and storage systems. As a nonpartisan, business member-based organization, Idaho Business for the Outdoors advocates for healthy lands, open space, and clean waterways. Our mission is to provide a collective, non-partisan business voice in support of the investments, jobs, innovations, revenues and wellness benefits sustained through the preservation of Idaho's outdoors. Our membership includes businesses of all sizes and industries including some of the largest employers in Idaho. Supporting House Bill 466 directly aligns with our mission.

Livestock production is a leading economic driver in the state of Idaho. House Bill 466 aligns targeted environmental outcomes with funds to support these water management and improvement projects that benefit our business community, as well as all Idahoans.

Idaho Business for the outdoors encourages the passage of House Bill 466, allowing industry to work towards these collaborative efforts. Please share our support with other sponsors in the House and other legislators as you see fit.

Best Regards,

Skylar Jett
Executive Director, Idaho Business for the Outdoors
